#### Description

The standard option is to have the Brigade crest as we have previously done but there is also the option to have the company name/individual's name embroidered in addition to the crest. You need to use the notes section when ordering to inform NHQ of the text you require so the correct items are ordered for you, ensuring the text you require is clearly given. If you decide to have additional text I will need to know the details as you wish for them to appear at the time of ordering.

**Any orders that have additional text are non-returnable, standard items are only returnable if there is a problem.**

This item is not held in stores, it is shipped direct from the supplier. Once you have placed your order, NHQ will notify you of the total postage costs for the entire order, you will then need to make payment in the usual way, however the order of polo shirts will not be placed until we have payment from you.

The lead time is approximately 1 week from placing the order (order placed once we have received your payment).
