

The Story of Salvation with a Story Bag

The story bag is a trick bag that changes color each time it is turned inside out. The colors are in an order that correspond to the main parts of the story. As the story is told and you change the colors of the bag, it captures the attention of the audience and holds that attention all through the story. You can make the explanation of each point as long or as short as you wish.

The preparation for the use of the trick bag is to simply have the bag ready with the first color outside. As you tell the story, turn the bag inside out bringing the next color to the outside.

1. **BLACK** - Explain that all have sinned and come short of the glory of God. (Rom. 3:23) The dark color represents sin and the ugliness of sin as the opposite of light. To get to Heaven we must obtain forgiveness for our sin. (also see 1 John 1:8 and 10, James 4:17, Rom. 6:23, and Rev. 21:27)
2. **RED** - It stands for the saving power of the blood of Jesus cleanses us from all sin. (also see 1 John 1:7, Rev. 1:5, Heb. 9:22, and John 1:12)
3. **WHITE** - It represents the new life in Christ. (also see 1 John 1:7, Rev. 1:5, Heb. 9:22, and John 1:12)

Jesus, 1 John 1:7 tells us that "the blood of Jesus cleanses us from all sin." (also see 1 John 1:7, Rev. 1:5, Heb. 9:22, and John 1:12)

Wash us, "Wash me and I shall be white; cleanse me, O God, and I shall be pure." (Ps. 51:10, Rom. 10:10, and 1 John 1:7)

Someday the saved will be in grace and in the glory of God forever. (also see 1 John 1:7, Rev. 1:5, Heb. 9:22, and John 1:12)

the name of God the Father and of the Son, or any other creature, as you

An all-round, great visual aid, perfect for all-age services and interaction with audiences.

A brightly coloured cloth bag is used as a visual aid as you tell a Bible story. It is turned inside out to reveal a different coloured interior. As the story unfolds the bag is turned inside out again and again to reveal different colours corresponding to the story. The final colour has a zipped pocket within small objects can be produced.
